# 01 GLOBAL NETWORK OF EVANGELISTS

One evangelist can reach only so far. One organisation can do only so much. Yet by working together, we multiply our efforts for the expansion of the Gospel and see many more people reached with the Good News. This is the vision of the Luis Palau Association's Global Network of Evangelists.

Dedicating our efforts to accelerate evangelism worldwide, the Palau Association is working to build networks of evangelists in 150 countries over the next 10 years.

Whether just starting out, or well-seasoned as an evangelist, there's always more to learn. GNE recognises the importance of sharing experiences and knowledge with one another to be more effective in proclaiming the Good News. This is the heart of GNE.

## GNE MEMBERS

The Luis Palau Association has been identifying, affirming, equipping, and mobilising evangelists for more than 20 years through the Next Generation Alliance (NGA) which grew into a fellowship of more than 800 evangelists, with members around the world. NGA was enfolded into the Global Network of Evangelists in September 2020.

Member evangelists work with each other and GNE staff on a regular basis to obtain practical help, advice, and coaching. Our website, [www.evangelist.global](http://www.evangelist.global) is full of encouraging articles, practical tools for ministry, and handbooks to provide best practices — all developed by other GNE members and the Palau team.

*“With all that is within me I want to say thank you for all the coaching, counsel, and care [GNE] affords me. Being connected to you and LPA/GNE has been the single greatest source of sustained assistance I have ever received as an evangelist.”*

Mike Silva : Mike Silva International

*“I thank God for the vision of Luis Palau to mentor younger evangelists like myself, [through GNE] and to give us a platform to share Jesus Christ around the world. I couldn't have done it without him.”*

### Country Networks

The Luis Palau Association is dedicated to accelerating evangelism worldwide by working to build networks of evangelists in 150 countries over the next 10 years. These networks are being developed through strong, trusted relationships with evangelists, Christian organisations, and local churches around the globe, with a vision to connect and encourage evangelists as never before to win more people to Christ.

### Evangelism Strategies

GNE desires to help networks and movements in global cities develop evangelism strategies to guide their passion for evangelism toward action.

We work with leaders in a city (including pastors, nonprofit leaders, evangelists, and other people of influence) who are passionate about evangelism and act as a catalyst to keep evangelism a central part of the Gospel Movement in their city.

## ADVANCE GROUP MENTORING GUIDE

### Community & Equipping

Evangelism is challenging, filled with opposition, and often exhausting. GNE is committed to equipping evangelists in key areas of ministry as well as connecting them with other evangelistically-minded innovators.

Through GNE, members have access to individualised coaching from GNE staff and senior leaders within GNE, as well as the many tools, resources, and best practices of other members. They are also encouraged to form strategic partnerships with other organisations.

One of the means of providing both community and practical training is through Advance Groups.

In partnership with the Message Trust, GNE seeks to mentor evangelists through the Advance Group movement.

Advance Groups promote and develop the calling of evangelists through a commitment to the proclamation of the Gospel and the support of those who proclaim the Good News.

*“Over the past 20 years, Luis and his team have quietly come along-side young, unknown, and often relatively undeveloped visionaries and evangelists. They have invested time, effort, and resources to help raise up a new generation of leaders who could continue the work of “Demonstrating and Declaring the love of God” to everyone, everywhere.”*

## COLLABORATION

The Global Network of Evangelists works to build relationships between organisations, foster unity among evangelists, and open doors for collaborative ministry. Collaboration provides an environment for evangelists to expand their ministries, mature, learn from one another, and reach more people with the Good News.

**WHY?** One evangelist can reach only so far. One organisation can do only so much. By working together we multiply our efforts, share the financial cost of ministry, and expand our impact for Jesus Christ.

**HOW?** GNE collaborates with local and national ministries and churches to plan and coordinate “saturation evangelism” initiatives throughout the world – gathering evangelists from numerous ministries and sending them out to lead evangelistic outreach events, evangelism training, and leadership conferences under our motto of *“one message, many expressions.”*

*“It’s such a blessing to be part of this worldwide network of evangelists and receive the training, resources, support, ministry opportunities and fellowship that being part of GNE brings!”*

Steve Mullins : Steve Mullins Evangelistic Ministries

*“[GNE] has been a huge blessing. The resources, wisdom, and networking have been priceless to our ministry.”*
